

## COMMUNITY ENERGY PLUS

### Is a cold or damp home making you ill?

Grants of up to £300 available for energy efficient home improvements.

For people who spend most of their time at home, keeping warm in winter (and cool in summer) is an important part of staying healthy and happy.

A new project is underway in Cornwall to help people who are at risk of illness caused by, or made worse from living in cold or damp conditions.

**Do you qualify for a prescription to achieve a warmer, healthier home?**

If you live in a low income household which is struggling with its energy bills and a member of your household suffers from a long term health condition, our Smart Warmth Project can help you.

**Find out how we can help, call us on**  
0800 954 1956 or 01872 245566  
[www.cep.org.uk](http://www.cep.org.uk)

We can't fund anything that is the responsibility of your landlord – if you are in doubt about what might be eligible, please give us a call.

Limited funding is available now and must be spent by October 2016, funding is allocated on a first come first served basis.

## Free energy advice and home energy health checks

As Cornwall's energy charity, we can provide free phone advice on all matters energy related including fuel debt, high bills, combatting damp and mould, grants for assistance and switching tariffs.

Home visits are available for those who need more in depth face to face assistance about energy, and would benefit from one-to-one support in their homes.

## HOW WE CAN HELP

A variety of practical measures to help you keep your home healthy and comfortable throughout the year (warm in the winter and cool in the summer) and reduce your energy bills, including:

- Heating repairs (e.g. broken boiler)
- Window repairs or replacement
- Draught proofing
- Extractor fans and dehumidifiers
- Chimney balloons and chimney sweeping
- Hot water cylinder jackets and pipe lagging
- Portable heaters (e.g. oil filled radiators and air conditioning units)

The measures and help available will be dependent on individual need and circumstances and must be for home improvements which cannot be funded by other sources.

*Community Energy Plus's Smart Warmth Project is funded by the British Gas Energy Trust*
