Letter from The Editor

As I'm sure you'll have noticed from the overwhelming weight of the tome you're now holding, this month's issue is jam packed, which is a silly turn of phrase when you think about it, because jam isn't really tightly packed; it's about the same as soup.

Carnival week is the busiest time of the year for Millennium house (and the events group!) This year it falls at the end of July, along with the actual carnival on August 1st. Please, come along to any events that grab your interest in the week leading up to it – nearly everything for the kids is free, from bingo, quiz day, and crafts; and there's plenty for adults too, of course. I'll be heading up the LEGO Brawls part of the gaming tournament on Friday, but we'll also have Just Dance and Mario Kart for those brave enough. There's still time to enter into the scarecrow and/or sunflower competition, with the entry form elsewhere in this issue.

This year, we've really tried to recapture the spirit of carnivals past, so there'll be a number of traditional games to have a go at on the day, with a token system to redeem all manner of fun prizes if you win.

I've also been asked by the NDP working group to include an 8-page segment on the plan for St Ive and Pensilva, and it would be very helpful for them if you could give some feedback, either via the online form, or on the day of carnival where they'll have a stall. We don't know what successive governments will bring, but having our own NDP is a critical first step to wresting control of development plans from the broader Cornwall Council.

In other news, if I had a pound for every new

prime minister we've had in the last decade, I'd almost be able to afford a pint in London. Alas, I don't, and I can't, but I'm sure everyone is pleased that in order to secure his legacy of authoritarian overreach, our illustrious Sir Keir has rushed through plans to ban children from the one last thing that they enjoy in the modern world: social media. Another way of describing the ban for children is that instead, all adults will now be required to show ID to use such dangerous sites as Facebook and YouTube. In fairness, DIY plumbing videos are absolutely dangerous for me. Even my iPhone demanded that I prove my age last week, lest I be sandboxed into a kiddie-only sanitised version of the internet. Just like the Online Safety Act, I'm sure the social media ban will be an abject disaster, but we'll talk about that another time.

The government claims that banning social media will let British children will have their childhoods back. They will now return in droves to the shuttered youth clubs, cubs and scout groups; rejoice at riding their bicycles on the perfectly safe streets; ~~climb trees~~ (sorry, 'elf and safety says I can't write that) walk calmly in the many remaining public green spaces; and gather joyfully in town centres where nobody would ever accuse them of loitering, being antisocial, or lowering nearby house prices.

On a positive note, at least the Culture Secretary can be pleased that the last stage of turning Britain into an immersive experience of the literary classic "1984" has been completed. All that remains is to replace the school disco with mandatory productivity training and issue every newborn with a QR code.

James

Chairman's Column

Well, they say "one day you're the lamp post, the next you're the dog!!" and I suppose now is one of those "lamp post" times for the village. Some of you will already know (and the kids most certainly will) that for safety reasons, we have had to close the skateboard park. The metal has simply started to corrode causing the whole structure to be condemned by the contractor we had employed to survey and assess what could be done. His report was damning and the photos he took were eye-openers to say the least. There was only one option left open to us and that was to demolish the whole structure. We are, as I write this, waiting on another contractor to give a price to dismantle and remove the metal sheeting. Obviously, the next step would be to replace this well-used and popular facility. Just one thing stands in the way: money! There is to be a community meeting organised (it may well have happened as you read this) to ascertain what the village would like to see in that space, as there are a couple of options being mooted.

On a more positive note, the Neighbourhood Development Plan is proceeding well but the Committee is aware of potential changes being brought in from Westminster (who just love moving the goalposts!) which will arrive some time mid-July. So that everyone in the village can have a say, we have decided to extend the consultation period into August, and there will be various ways you can join in – you will see a "hard copy" contained within the pages of this month's Pump. You can fill in the form online (plan4stive.co.uk), and we are taking a stand at the Carnival Day, which I'm sure you don't need reminding is August 1st. So while you're out and about at the Carnival, just pop in to see us and you can discuss any issues face to face. These extra "voices" will ensure we are truly addressing the interests of Pensilva and St Ive.

By the time you read this, preparations will be well advanced to ensure we have a Carnival to remember. The theme this year is Steam Punk and the Age of Steam - I'm really looking forward to seeing the various steam-powered vehicles. There's such a lot to organise and on behalf of the Parish Council I would like to wholeheartedly thank the organisers for their unstinting hard work to bring this fabulous event to fruition. I'll see you there!!

Steve

What's on at Millennium House?

JULY'S SPECIAL EVENTS

SUNDAY 5th: Market Day 11am - 2pm. Featuring local crafts and tasty treats.

WEDNESDAY 8th: Pensilva W.I. Monthly Meeting from 7pm.

Mondays 10-3pm (Post Office not open); Tuesdays, Wednesday, Friday 9-1pm (with the Post Office open until 11:30am)

MISSING YOUR EVENT? Make sure you email stiveparishpump@gmail.com before the 15th of the month prior.

Hui

Pensilva WI Meeting Report

Members reported back on an enjoyable day recently, completing “chicken scratch” embroidery, they showed their creations – the name comes from the pattern the stitches make on the back of the piece! A round of applause was given to the team who came second in the County Jigsaw challenge – well done to them! Meanwhile, a team is busy putting together an entry for the Liskeard Show – we will know the result of this by next time! Birthday posies and well wishes were given to Olive Davis, Ann Houlston, Annie Monks, Kay Price, and Alison Willis, who all celebrate in July.

We settled in for a very interesting talk on **The Mercy Ships** by one of their volunteers, Mike Temple. He explained that this incredible charity owns and runs two fully equipped hospital ships – Africa Mercy and Global Mercy. Staffed by volunteers, they can travel to where they are needed (ships were chosen as 44% of the world's population live within

100 miles of the coast). Since 1978, they have been bringing hope and healing to more than 56 nations, providing services worth over £1.2 billion and have helped more than 2.8 million people. They are currently in countries in sub-Saharan Africa, providing operations, training, support and facilities. There were pictures showing 6,000 people patiently queueing to be assessed, the lucky ones were then invited to an appointment to receive vital healthcare. They could be treated for anything including vaccinations, cleft palate, eye conditions, tumours, burns, or palliative care. There are over 200 different jobs on board and Mike had served twice on the ships – once as a chef and once as a training and development facilitator. He told so many anecdotes, but what resonated was just how lucky we are to have healthcare on our doorstep. The charity relies on donations and members were moved by what a difference the ships and their incredible volunteers make. Find out more at mercyships.org.uk

Competition results for June were: **Flower of the Month:** 1st Ann Houlston; 2nd Kath Griffin; 3rd Trish Thomas. **A ship in any medium:** 1st Maureen Walker; 2nd Frances Tucker; 3rd Trish Thomas (Starship enterprise - judge awarded this for humour!)

The Horticulture Show will be held on the 12th September - schedules are now available. Pensilva WI are still collecting used stamps. The box is at Millennium House.

Next meeting: Wednesday 8th July, 7.15pm – Speaker from “Farm Cornwall”.

Contact us with any enquiries at pensilva@cornwallwi.org.uk

Update on Aid for Ukraine

On the 18th of May, Rupert and Stuart – two members of the Nightingales team – took our 19th vehicle filled with medical aid, across Europe to Uzhhorod in Ukraine.

As we were so successful with our fundraising efforts last month, we were able to buy two vehicles in May. Team members Denise and Tracy, drove our 20th vehicle, a Nissan Navara, which they handed over on the 26th May, to the 155th Separate Mechanized Military brigade. The military then delivered the vehicle, packed with medical aid to frontline medical staff, for distribution and evacuation of wounded military and civilian personnel.

Before these brave Ukrainian soldiers left, they kindly presented the Nightingales team with a Brigade plaque which we were very proud to receive.

I cannot thank you enough for all the kind donations of car boot sale items that we have received. This month we have raised £2,000, with our yearly annual total to date standing at £8,000. Your donations enable us to send these vehicles to where they are most needed. Without

your support these trips simply would not happen. THANK YOU! The team are planning to deliver another two vehicles next month, leaving on the 13th of July and I have been asked to share the driving with the team.

My friend Carol came up with a great idea of writing to soldiers on the frontline and sending them positive, kind wishes from Cornwall. If you would like to send a letter, please keep it simple, with uplifting, supportive messages, free of sensitive political references. Handwritten letters, cards and drawings from children are highly effective morale boosters. Unfortunately, soldiers on the front line rarely have the time or facilities to write back, so please don't expect a reply. I can take these letters with me to Ukraine next month and ask the handover team to forward them to the front-line units. If you would like to send a letter, please put it in a plastic envelope and leave it in the pink bin on my drive, (see address details below).

Tragically the war rumbles on and the innocent are caught up in the firing line every day. Yesterday's news reported that a young mother aged 28, died shielding her two sons (aged just three and five) from falling shrapnel, as Russian missiles hurtled towards their Kyiv home. She died yards from the safety of an underground car park being used as a shelter. This missile strike alone, killed 6 people and injured 20 others.

PUMA (Plymouth Ukraine Medical Aid), a non-profit organization that also delivers medical supplies and clothing have asked if we can collect WHITE plastic milk bottle tops which are used to repair drones. They must be WHITE NOT GREEN. Thank you for your donations.

As a group we are promoting the message that we need high spec medical aid and donations, ensuring that we can buy the very specific medical equipment needed to save lives on the front line.

Therefore, if you would like to make a cash donation, please go to

[gofundme.com/f/Nightingales-UK](https://www.gofundme.com/f/Nightingales-UK)

If you would like to donate a long wheel base 4 x 4 vehicle, please email

nightingalesuk@gmail.com.

The need for unused and in date medication is as great as ever. If you have any medication that you no longer need or use, please consider donating it to Ukraine. All identification labels are removed and medication is checked by medical staff, prior to transportation. We are also appealing for Paracetamol and Ibuprofen, as well as men's toiletries such as wet wipes, shower gel, deodorant etc. If anyone has any unwanted **wool**, we would be very grateful to receive donations so that we can continue to send knitted items.

Please continue to support us where you can.

There is a pink dustbin by the wooden box on the drive, outside my house where you can place your unwanted/donated items. For those of you who don't know where I live, our house is Rivendale PL14 5PG, located next to the Pensilva Medical Centre. If you would like me to collect any items, please contact me on 07808663749. Once again, thank you for all your kind donations and support.

The Ukrainian people continue to show their resilience, love of freedom and enduring faith in a better future and this powerful message encapsulates the modern Ukrainian spirit of defiance and hope: "Being Ukrainian means being ready for the end of the world and having plans for the morning". I think we could all learn something from this. God bless.

Nightingales UK are currently asking for donations of the following aid supplies:

Over-the-counter medicines

- Paracetamol
- Ibuprofen
- Cold and cough Medicine
- Antihistamines
- Immodium

Prescribed in date medicines

- Antibiotics
- Painkillers, (no Codeine or controlled drugs)

- Blood Pressure and heart pills
- Asthma and COPD inhalers
- Prednisolone

Nursing Equipment

- Dressings/bandages
- Tape
- Dressing packs
- Antiseptic wipes and fluid
- Scissors
- Sutures
- Steristrips
- Eye wash and dressings

Surgical Equipment

- Urinary Catheters/bags etc
- Colostomy stoma care and bags etc
- Splints, slings, orthopaedic kits, scalpels and basic surgical kits.

Medical Equipment

- Stethoscopes
- Blood Pressure Machines
- Blood Sugar Monitoring
- Peak flow meters etc
- Pulse oximeters

Humanitarian Aid

- Children's nappies, formula milk, bottles
- Adult continence pads
- Wet wipes, toothpaste, toothbrushes, deodorant, shower gel, mens toiletries.
- Nutritional drinks
- Torches, batteries

Please do not send

- Clothes, blankets, food, crutches, disability walkers and wheelchairs.

Thank you.

NEWS FROM TREGOVENEK...

It's been a busy few months in the garden and the hard work has paid off! If you haven't been to have a look for a while, please do come and spend some time in the garden enjoying the creativity of all the wonderful volunteers and the beauty of abundance.

INVITE TO REVISION TREGOVENEK

There has also been plenty of hard work going on behind the scenes to ensure Tregovenek has a positive future. We're now at a stage where we'd love to hear from you....

As members of the local community, we are inviting you to share your ideas, hopes and dreams for your community garden and to imagine how you would like Tregovenek to be in the years ahead.

The closing date for responses is the 17th July so please email outreach@regovenek.org.uk ASAP to express your interest in taking part in this process. We'll then give you options for the easiest way to have your say.

There will be a public event in October for everyone to come and hear how we've woven all the contributions together and to celebrate our next chapter together.

Many, many thanks for your continued support.

Tregovenek Community Garden
(next to Pentiddy Community Woodland),
Attwood Lane, Pensilva, PL14 5QU

TREGOVENEK 
a place of hope

Tamar Valley Food Hubs

As we move out of the hungry gap, June into July is a time of so much amazing local seasonal produce.

At Tamar Valley Food Hubs we bring together the best of local and seasonal produce in one place. Connecting small-scale food and drink producers that are paid a fair price to customers. ***From local fields to local hands.***

Tamar Valley strawberries in abundance. Their colour, flavour and smell really are the official start of summer.

Asparagus in May, never better when it's locally grown and freshly picked. Moving now into mangetout, peas, spinach, colourful salad, broad beans in abundance, new season carrots, onions, beetroot, cabbage, kale, courgettes, kohlrabi, fresh herbs, broccoli, and much more.

It's been a really busy time for local market gardeners Wild Tor Organics, a ten acre farm on the edge of Bodmin Moor, not far from Rilla Mill. Exhausting at the best of times, Kris and Ellis welcomed a newborn baby Runa to join their toddler Olwen and complete their little farm family. Somehow they still got (almost) everything planted, weeded and watered through the heat and now have 90 thirty-metre beds full of veg all growing at a staggering rate. Tunnel crops are in and tied up and tomatoes already sideshotted twice.

Then there is the protecting everything from rabbits and deer which meant literally cutting a half-acre roll of mesh to protect almost everything. This was their first spring on the farm - so it's also been challenging working out systems, learning soils and managing pests. Working to the overhead sound of skylarks and barn owls in the new habitats created.

You can shop Wild Tor Organics at Tamar Valley Food Hubs alongside many other local producers including nearby Hester's Harvest. With no minimum order it's simple. Set up an online account www.tamarvalleyfoodhubs.org.uk, browse the weekly produce and fill your basket from all we have to offer for Friday collection (including at Millennium House), or delivery.

Good farming and good food sold in the area where it's produced are key to local economic success that in turn create jobs, support national food security, public health and a strong sense of community.

Tamar Valley Food Hubs is a not-for-profit social enterprise connecting small-scale food and drink producers to local customers.

After the sudden death of her father, Helen loses herself in the memories of their time birding and exploring the natural world together and turns the ancient art of falconry; training a wild goshawk named Mabel to navigate her profound loss. But as she teaches Mabel to hunt and fly free, Helen discovers how deeply she has neglected her own emotions and life. What begins as an act of endurance transforms into an intimate journey of resilience and healing.

SIXTEEN+ YEARS OF WILDLIFE WATCHING IN THE PARISH OF ST. IVE

Since moving to the Parish at the end of 2009, I have been photographing and recording the wildlife which I see at my home on the edge of Pensilva on a daily basis. Last month I looked at the Raven which I usually only see up on Caradon Hill but paid an unexpected visit to my garden. This month's bird has only ever been seen locally up on Caradon Hill, including in the last few weeks...

THE WHEATEAR

The Wheatear's name originates from Old English and describes an aspect of its appearance. Wheat meant "white" and ear meant "arse" and refers to their white rump which shows in flight! It is a member of the chat family of birds. The male is quite striking,

with a black patch over its eye and cheek and black wings. It is blue-grey above with an orange tinge on its breast. The female (pictured to the left) has similar markings, but in much more muted shades of brown. Juveniles are speckled. Adult wheatears are about the same size as a robin.

Records show that its favourite habitat is moorland, with heathland, bogs, marsh and coastal areas following on. Sightings elsewhere are much rarer, so it is not surprising that they are sometimes spotted on Caradon Hill. It is a largely ground dwelling bird, hopping and running along.

The wheatear is a summer visitor, having overwintered in central Africa. Some travel even further and go on to Greenland and Alaska, making their's one of the longest migration flights for a songbird of its size. These birds may stop in the UK enroute and are slightly larger and have slightly deeper colours. Those that stay nest mainly in the west and north of the UK, around the coastal strips and on higher ground.

A typical wheatear nest would be built in cavities between rocks, old rabbit burrows or in

cavities in man-made walls and lined with moss and feathers. Indeed, the one I saw when walking on Caradon Hill in the spring, emerged out of a stone wall and was probably trying to lead me away from it. I didn't want to further disturb them by looking closer, but that may well have been a nest site. First clutches may be laid between early May and early June. They commonly raise two and occasionally three broods in a year. Clutch sizes can be from two to eight, but they typically lay five or six eggs. As the difference in their plumage indicates, the eggs will normally be brooded by the female, but the male will occasionally also sit on the eggs. The eggs hatch after about fourteen days, with the chicks fledging in approximately another two weeks.

The Wheatear's diet consists largely of insects, larvae and other invertebrates. However, they do occasionally eat berries.

Due to a slight decline in their numbers over recent decades, wheatears have been moved onto the amber list, indicating some level of concern about their future conservation.

They are very attractive little birds, so do keep an eye open for them when you are out walking through from spring to early autumn.

HAPPY WILDLIFE WATCHING!
Hilary

Friday	28 th August	6 – 7:30	Community

Welcome! Since we started to develop table tennis in Pensilva, we have arrived at a point where we now have two distinct but overlapping groups with around 25 players each week.

The LEAGUE players, and those who aspire to play competitive league table tennis, meet on Wednesdays between 6 and 7:30pm under the watchful eye of Martin, our new coach.

On Fridays, also between 6 and 7:30pm, our COMMUNITY based group enjoy the fun of

playing the game without the pressure and expectations of the Wednesday players. Many though will graduate/switch between community to league as the season progresses.

Next month I hope to bring you the pathway taken by two of our recent recruits who are travelling along this route at present. One is still at primary school, and the other a few years away from retirement.

Wonder who they are? Come and play!

WHAT IS THE ST IVE & PENSILVA PARISH NEIGHBOURHOOD DEVELOPMENT PLAN?

Planning law gives St Ive & Pensilva Parish Council the power to create a Neighbourhood Development Plan (NDP) — a community-led framework that helps shape future planning decisions in the Parish.

In 2022 a local community team [the Steering Group] was set up to draw up the Neighbourhood Plan. It collected and analysed evidence, including the results from major surveys of local opinion taken between 2023 and 2025. Based on this, the Steering Group have now written the Consultation Draft of the St Ive and Pensilva Parish Neighbourhood Development Plan.

St Ive & Pensilva Parish Draft Neighbourhood Plan

Consultation 2026 SUMMARY LEAFLET

A Neighbourhood Plan is our chance to make sure future planning decisions reflect what local people want — helping to shape development in a way that's right for our Parish!

WHAT YOU TOLD US THE PLAN SHOULD DO...

Protect what makes the parish special – safeguard its tranquillity, landscape, wildlife, and biodiversity that residents value most.

Provide the right homes – deliver more affordable and family housing, plus adaptable homes for older residents and those with mobility needs.

Focus new housing in the right places – favour brownfield sites, infill, and small-scale rounding-off within or at the edges of existing settlements.

Support local jobs and enterprise – encourage small-scale industry, workshops, crafts, farming and forestry, retail, and spaces for home-working, promote tourism growth, and build on its reputation as a good place to live and work.

Strengthen community facilities – protect key services including the GP surgery, village shop, Post Office facility, Millennium House, playing fields, sports facilities, the school, and explore possible new amenities.

Enhance local infrastructure – improve roads, pavements, and digital connectivity to support daily life and local enterprise.

Champion the natural environment – protect trees and hedgerows, protect habitats, minimise pollution, and support community-led climate and energy initiatives to help tackle climate change.

Improve transport and road safety – address parking pressures, enhance bus links to key destinations, promote safer travel through better footpaths and reduced speed limits and encourage better broadband and mobile coverage to help residents and businesses

WHAT WE DID IN RESPONSE...

- ◆ **Reviewed existing policies:** Looked closely at the National Planning Policy Framework and the Cornwall Local Plan to understand how national and local policies affect our Parish.
- ◆ **Gathered local evidence:** Collected and analysed evidence on the key themes...Housing, Business and Employment, Community Facilities, Recreation and Open Space, Design and Heritage, Roads Access and Transport.
- ◆ **Commissioned a detailed Design Guide** from urban designers.
- ◆ **Developed a Vision and Objectives and wrote Planning Policies** for future planning in the Parish, to guide new development.

THE VISION FOR ST IVE & PENSILVA PARISH TO 2030 AND BEYOND

‘By 2030, the parish of St Ive will encompass two wards, each with its own unique character: St Ive and Pensilva, surrounded by a number of rural hamlets and scattered rural properties.

Pensilva's built environment will proudly reflect the parish's rich mining heritage and historical significance.

At the same time, St Ive will celebrate its agricultural and historical roots, honouring its connection to the internationally acclaimed achievements of Emily Hobhouse.

Both communities will thrive with vibrant, inclusive societies and a prosperous rural economy that supports the needs of all residents, regardless of age or ability.

OBJECTIVES OF THE ST IVE & PENSILVA PARISH NEIGHBOURHOOD PLAN

- ⇒ **Climate Change** - tackle climate change locally, promote renewable and low-carbon development, enhance sustainable transport
- ⇒ **Housing** - deliver the right homes in the right place, promote resident-centred design
- ⇒ **Business and Employment** - foster key industries, enable remote and small-scale enterprises
- ⇒ **Heritage, Design, and Local Character** - promote character-led development, protect heritage and landscape
- ⇒ **Natural Environment** - preserve environmental quality, enhance biodiversity
- ⇒ **Community Facilities and Infrastructure** - enhance health and well-being, foster community connections.

SUMMARY OF NEIGHBOURHOOD DEVELOPMENT PLAN POLICIES

CLIMATE CHANGE

The Issues

The Parish recognises the importance of **doing its part to tackle climate change**. Wind speeds here are strong enough for turbines, but opportunities for **large wind projects are limited because of the sensitive landscape** — including the nearby National Landscape (AONB) and the World Heritage Site. **Solar generation faces similar constraints**, though there may be scope for small-scale hydro schemes in suitable locations.

Many local people agree that action is needed to reduce the causes and impacts of climate change, though not everyone supports renewable energy projects.

Improving energy efficiency through retrofitting homes and using low-carbon heating systems is a key way forward.

With the climate changing, higher flood levels are expected, so local resilience and adaptation will become increasingly important.

What does the Plan say?

- Policy 1 – Sustainable Design:** New buildings must be energy-efficient, low-carbon, and use sustainable materials. Retrofitting older homes is encouraged.
- Policy 2 – Energy Storage:** Support for well-sited battery storage linked to renewable energy.
- Policy 3 – Community Energy:** Encourage locally owned renewable schemes that benefit parish residents.
- Policy 4 – Renewable Energy:** Support small-scale wind, solar, and hydro where landscape, heritage, and amenity are protected.
- Policy 5 – Heating Transition:** Promote low-carbon systems (heat pumps, biomass, solar) and sensitive retrofitting of heritage buildings.
- Policy 6 – Windows:** Repair traditional windows where possible; replacements must match original design and materials.
- Policy 7 – Sustainable Drainage:** Use natural features like ponds, swales, and rain gardens to manage surface water.
- Policy 8 – Natural Flood Management:** Support nature-based flood solutions such as tree planting and wetland creation.

THIS CONSULTATION
is your chance to
shape what goes into
the final document :

YOUR PARISH
YOUR PLAN
YOUR SAY!

HOUSING

The Issues

The local average house price to local income ratio in the Parish, which should be around 4:1 if a home is to be affordable, is currently about 7.2:1. This means that most homes are unaffordable to local people on average wages. So there's a **clear need for more affordable homes to meet local needs** — including shared ownership at low cost levels and social rented homes.

The housing stock is dominated by larger properties [60%] while most households [72%] are small, typically one or two people. With an ageing population, more suitable downsizing homes are needed, while the decline in younger residents underlines the importance of providing smaller, affordable homes **to keep the community balanced and sustainable**.

Current estimates suggest around 50 new dwellings are needed, mainly 1 and 2 bedroom homes.

There is **widespread community support for small-scale developments** rather than large estates.

What does the Plan say?

Policy 9 – New Housing at St Ive & Pensilva Focus new homes inside village boundaries through small infill and brownfield reuse, respecting local character and improving walking and cycling links. Only very limited rural housing allowed for essential needs or building reuse.

Policy 10 – Housing Mix Provide small and affordable homes, including social rent, with designs suitable for younger people, older residents, downsizing and home-working.

Policy 11 – Rural Exception Housing Support small affordable housing schemes on village edges where there is proven need and good design. Limited market housing allowed only as cross-subsidy.

Policy 12 – Community, Self & Custom Build Encourage self-build, custom-build and community-led affordable housing that remains affordable in perpetuity and meets local design standards.

Policy 13 – Infill in Hamlets Allow one or two homes in hamlets only where they fill a clear gap, fit local character, and have access to services.

ECONOMY & EMPLOYMENT

The Issues

Many people in St Ive & Pensilva Parish travel elsewhere for work, as there are **only limited job opportunities locally**. This lack of local employment makes it harder for young people and working-age people to stay in the area and build their careers.

What does the Plan say?

Policy 14 – Employment Land Protect key business areas at Pensilva and St Ive Cross, support low-impact commercial development and flexible workspace, and encourage live/work units where business use is primary.

Farming continues to play a vital role in the Parish — providing jobs, supporting the rural economy, and helping maintain the distinctive landscape. **Tourism, too, has potential for growth**, especially where it celebrates the area’s natural beauty, heritage, and culture.

There’s also a high number of self-employed residents and people working from home compared with other areas. This highlights the growing need for flexible workspaces, small business premises, and fast, reliable broadband to support local enterprise and home-based working.

Policy 15 – Home-Based Work : Allow small-scale business use of homes, extensions or outbuildings where it causes no noise, traffic or visual impacts and maintains residential character.

Policy 16 – Farm Diversification & Rural Tourism Support farm enterprises and small, sustainable tourism uses, such as glamping or farm shops, that boost rural incomes, respect the landscape, and remain appropriately small-scale and holiday-use only.

NATURAL ENVIRONMENT

The Issues

St Ive and Pensilva is a **mainly rural parish** of farms, fields, woodland, and small hamlets, set **across rolling hills and two attractive river valleys**. These valleys, woods — including ancient woodland — and protected wildlife sites all help give the area its rich natural character.

Old mining remains on the surrounding hills, part of the Cornwall and West Devon Mining World Heritage Site, **are also a key part of the area’s landscape**.

Residents value the parish’s peaceful setting, its important viewpoints, and its dark, starry skies. However, poorly designed lighting can harm wildlife, waste energy, and reduce the sense of tranquillity that people enjoy.

It is **important that any new development fits sensitively** into this special landscape. Growth should respect the natural environment, protect what people value, and help strengthen the parish’s wildlife, character, and resilience for the future.

What does the Plan say?

Policy 17 – National Landscape and World Heritage Site Protects key views and the special qualities of Bodmin Moor and the Cornwall & West Devon Mining Landscape WHS. Larger schemes must include landscape and heritage assessments.

Policy 18 – Biodiversity and Green Infrastructure Requires all development to strengthen green infrastructure, deliver at least 10 percent biodiversity net gain, and create or connect habitats in line with the Cornwall Local Nature Recovery Strategy.

Policy 19 – Trees, Cornish Hedges and Hedgerows Protects and restores trees, woodlands, and Cornish hedges. Ancient woodland and veteran trees may only be lost in wholly exceptional cases.

Policy 20 – Tranquillity and Dark Skies Protects rural tranquillity and the Bodmin Moor Dark Sky Landscape by limiting noise and light pollution, requiring well-designed, low-impact lighting and supporting low-impact dark sky-related recreation and tourism.

The Issues

Our villages look and feel attractive, but **some newer developments and extensions haven't always fitted in well**, leading to concerns about how future changes might affect their charm.

St Ives & Pensilva Parish is full of history, from ancient sites and listed buildings to its proud place within the Cornish Mining World Heritage Site. Many of its buildings have a unique local style that residents really value, giving the area its own special character and sense of place.

Beyond the well-known landmarks, there are also **many unlisted historic sites that add to the Parish's character** — some of which could be harmed by uncaring development and need care or restoration to keep them from being lost.

What does the Plan say?

Policy 21 – General Design Principles New development must follow the Cornwall Design Guide and local Design Codes, fit village character, use durable materials, avoid exposed sites, and provide safe access and parking.

Policy 22 – Heritage, Design and Cornish Distinctiveness Respect the parish's historic character and World Heritage Site, use local materials, and include a heritage statement. Contemporary design is supported where it enhances local distinctiveness.

Policy 23 – Non-Designated Historic Assets and Archaeology Protect locally valued historic buildings, landscapes and archaeology. Any harm must be justified and minimised.

COMMUNITY FACILITIES & INFRASTRUCTURE

The Issues

Community facilities play a key role in keeping St Ives & Pensilva a friendly, inclusive, and healthy place to live. The Parish already has some great local facilities and services that people really value, but residents still need to travel outside the area for important things like healthcare and secondary schools.

Looking after and improving the community buildings and spaces we do have can be a challenge, as the stock is limited and often under pressure. Around the Parish, several much-loved green spaces add to local character and heritage, and these deserve to be protected.

While there's plenty of natural space for walking and enjoying the outdoors, there's a clear lack of equipped play and recreation areas for children and young people. Future growth could also place extra pressure on local infrastructure — from roads and parking to drainage, water, and community services — so careful planning will be essential.

Connectivity is a major challenge for the parish. Many people experience **slow broadband and poor mobile signal**, which affects home-working, business activity, and everyday communication. Getting around is also difficult, **with narrow roads, limited public transport, and very few safe cycling routes.** Parking problems, damaged verges, and concerns about road safety — including the need for better footpaths, 20mph zones, and effective traffic calming — add to the pressure on the local transport network.

What does the Plan say?

Policy 24 – Community Facilities Protects key community buildings such as the shop, school, GP surgery, Millennium Centre, halls and churches. Support improvements, expanded uses and better access, including active travel and visitor parking. and create welcoming places for people to meet.

Policy 25 – Open Space and Recreation Safeguard parks, play areas, sports spaces, natural green spaces and future allotments. New housing must contribute to open space that meets Cornwall standards, with priorities such as upgraded play areas, pocket parks, safer routes and better footpath links.

Policy 26 – Transport, Highways and Communications Supports safer, low-carbon travel. New development should improve access to buses and active travel, manage speeds and parking, and avoid congestion on rural lanes.

Policy 27 – Footways, Pedestrian Links and Rights of Way Protects existing paths and rights of way, requiring safe connections, minimal diversions, and accessibility for all users.

Policy 28 – Digital Infrastructure, Resilience and Investment Promotes fast, reliable broadband, stronger mobile coverage, and resilient communication systems with battery or solar backup during power cuts.

WHAT DO YOU THINK?

Consultation on the Neighbourhood Plan is open until 10th AUGUST 2026, and we'd love to hear from you.

Please comment through the online survey at plan4stive.co.uk [see QR code alongside], or complete the enclosed form and send it to the Parish Council before the deadline.

Your comments matter. They will help us understand whether the Plan reflects earlier community survey feedback, responds properly to national planning policy, and says the right things for St Ive and Pensilva. THE MORE PEOPLE WHO COMMENT, THE STRONGER THE PLAN WILL BE!

TO FIND OUT MORE YOU CAN:

1. READ THE FULL PLAN AND ALL THE SUPPORTING EVIDENCE ON OUR WEBSITE AT: plan4stive.co.uk [see QR code alongside]. If you prefer a printed copy, please email stiveparish@btconnect.com or phone 01579 363096 to arrange to borrow one.

- **2. VISIT OUR STAND AT THE PENSILVA CARNIVAL DAY, MILLENIUM HOUSE ON 1ST AUGUST, FROM MIDDAY.**

WHAT HAPPENS NEXT?

All comments will be reviewed and the Plan updated to reflect community feedback. It will then be submitted to Cornwall Council for independent examination by a planning expert.

After that, the final Plan will go to a Parish Referendum, giving everyone in St Ive & Pensilva the chance to vote. If a majority vote “yes,” the Plan will become part of the official planning framework, meaning it must be used by Cornwall Council, developers, and Planning Inspectors when deciding future planning applications.

Millennium House Community Transport

**Do You Require Transport
for an appointment, shopping or any other?**

Our Parish has a number of volunteer drivers who have agreed to help those who do not have transport, by using their own vehicles to help those in need.

Our aim is to connect local communities and reduce social isolation. We do need more volunteer drivers to cope with the demand. If your retired and would like to volunteer please contact us.

or if you require transport to Hospital; Doctors, Vaccination etc, and have mobility issues and are unable to drive to your appointment. The more volunteers we have the less frequent we'll be called upon.

Please contact Marlene on **01579 362919** or **07896 994947** and we will endeavour to help.
